To The Trade:

This is the second printing of our Fret Moulding Catalogue and brings you up-to-date on all of the Fret Moulding patterns that are available at the present time. The designs as shown are approximately full size.

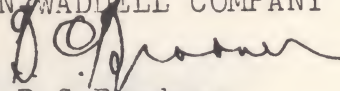

All of our Fret Mouldings are furnished in selected three ply Birch plywood, 3/64" thick, except as noted under certain designs in the catalogue. The backs are glued to permit easy application. It is possible also to furnish Fret Mouldings in Mahogany plywood at an extra cost.

In ordering be sure to specify the pattern number and the quantity, as well as the actual size wanted. Minor variations of width can be made to our regular patterns to adapt them to any special requirements you might have. Special lengths can be furnished if desired.

All of our Fret patterns are sanded and ironed. The glue backing is done in our own plant.

We are in a position to make prompt deliveries. Your inquiries will be appreciated and we promise the lowest prices consistent with present conditions.

Yours very truly,
BOYNTON WADDELL COMPANY

B.C. Bradner
